

GABRIEL VELASQUEZ

Halang, Amadeo, Cavite | gabrielvelasquez7000@gmail.com | noneual.vercel.app

I am a developer who builds practical, full-stack applications using technologies like React and TypeScript. My background as a Beta Tester for LandFall Games provides me with a strong focus on quality assurance and user experience, driving me to create software that is both robust and intuitive.

AREA OF EXPERTISE

Prototyping Tools
Beta Tester QA

GFX Design
Visual Design

Accessibility
Responsive Design

KEY ACHIEVEMENTS

- Conducted Beta Testing and Quality Assurance for **LandFall Games** titles (Peak, Stick Fighter, ROUNDS), assessing gameplay mechanics, system stability, and user interfaces.
- Managed all financial transactions for Cafe **Amadeo Development Cooperative**, ensuring accuracy and regulatory compliance, while simultaneously elevating customer service standards as a Barista.

PROFESSIONAL PROJECTS

Bracket Craft | Solo Development

Jun 2025 - Sept 2025

- Developed a Progressive Web Application (PWA) for tournament management, utilizing React, Redux, Node.js, and Supabase to provide real-time updates and offline functionality for users.
- Managed the full software development lifecycle, from designing the multi-tier architecture to implementing features like tournament creation, responsive UI with Tailwind CSS, and deploying the application using Vercel and Railway.

School Attendance App | Solo Development

Feb 2025 - Apr 2025

- Engineered a Progressive Web App (PWA) using React and TypeScript to automate student attendance tracking through QR code scanning, reducing manual data entry for faculty.
- Implemented a secure, serverless backend by leveraging the Google Sheets API v4, enabling real-time data logging and management without traditional database costs or maintenance.

EDUCATION

Bachelor of Science in Information Technology

Aug 2024 - Present

Olivarez College Tagaytay

- Focusing on Software Development and Web Technologies
- Actively participating in Tech Innovators Council

Accountancy, Business and Management

Mar 2022 - May 2024

Halang Banaybanay Integrated School

- Gained foundational understanding of business principles, financial concepts, and project management.
- Developed strong analytical and problem-solving skills through case studies and group projects.

ADDITIONAL INFORMATION

- Languages:** English, Tagalog, Hiligaynon.
- Certifications:** Postman API Fundamentals Student Expert
- Awards/Activities:** Tech Innovators Council, Dean's List (AY 2024-2025)
